Summary

Proactive and detail-oriented software developer with 2+ years of experience delivering high-quality, scalable web applications using JavaScript, React, Node.js, and MongoDB. Adept at writing clean, testable code, integrating REST APIs, debugging applications, and collaborating in Agile teams. Skilled in analyzing user requirements and translating them into software features. Comfortable working across the full software development lifecycle and contributing to both documentation and QA processes.

Work Experience

Accenture   Dec 2024 – Present
Application Developer   Philadelphia, PA

- Updated AWS Lambda functions from GPT-3.5-Turbo to GPT-4o-Mini, optimizing performance and cost-efficiency.
- Developed an AI-powered feature using OpenAI Realtime Client that assessed outfit suitability based on current weather conditions by retrieving user geolocation, capturing a user image, and passing data through API Gateway to AWS Lambda for analysis and response generation.
- Designed and implemented prompt-based workflows to analyze multiple surveys by mapping semantically similar questions across different datasets, identifying discrepancies in responses, and generating concise summary reports of all inconsistencies detected.

Verizon   Aug 2023 – Jun 2024
Junior Software Engineer   Tampa, FL

- Improved system performance by optimizing Oracle SQL queries.
- Designed normalized database schemas to ensure integrity and efficiency.
- Enhanced backend responsiveness by refactoring legacy SQL logic.

Revature   Mar 2023 – Present
Full Stack Software Developer   Remote

- Completed intensive Java training focused on OOP, debugging, and full-stack web development.
- Successfully adapted to remote team dynamics and diverse client needs.
- Presented live demo of an eCommerce platform, featuring secure login, third-party APIs, and cloud hosting with Spring Boot, Maven, and AWS.

Technical Skills

Languages & Frameworks: Java, JavaScript, Spring Boot, React, Angular, HTML/CSS
Cloud & DevOps: AWS (Lambda, Amplify, CodeBuild, CodeCommit, API Gateway, IAM), Microsoft Azure
Databases: Oracle SQL, MySQL, SQL Server, DynamoDB
Tools & Technologies: RESTful APIs, OpenAI, Generative AI, User Authentication

Education & Certifications

Georgia Institute of Technology - *Certificate in Full Stack Web Development*   Sep 2021 – Dec 2021
Jefferson Community College - *Certificate in Paramedicine*   Sep 2014 – Jun 2016
Monroe Community College - *Associate of Applied Science*   Sept 2011 – Dec 2013
